COVID-19 Vaccine Second Dose Clinic – Date Change

Wichita Falls, Texas – Due to possible inclement weather, the Wichita Falls – Wichita County Public Health District has decided to move their second Pfizer dose mass vaccination clinic to Friday, February 12 at the MPEC located at 1000 5th Street, Wichita Falls from 8AM to 5PM. The clinic was originally scheduled for Saturday, February 13 and is only for individuals who received their first dose at the MPEC on Saturday, January 23. There will be slight changes to the process in order to accommodate the public due to the weather. Individuals will need to enter the building through the west entrance when they arrive. They will then complete their forms inside. Individuals need to bring their vaccination card to the clinic.

For individuals who received the first dose on January 23, their appointment time for the second dose, is the exact same time as it was on January 23. The Health District will call all individuals as a courtesy reminder and asks the public to please make sure you are available for your second dose vaccine. There will be no makeup days and appointment times are unable to be changed.

This change does not affect individuals who received their first Pfizer dose at the Health District on January 26, 27 and 28. Their second dose appointment times and dates remain the same.

- **The clinic is appointment based.** The Health District will call all individuals as a courtesy reminder.
- Those who have an appointment will need to use the MPEC's West entrance.
- Enter the MPEC facility on the West side located off Burnett Street.
- Please bring your vaccination card to the clinic.
- Masks are required.
