Sanitation Services Schedule

Wichita Falls, Texas – We appreciate the public's patience as trash services have been adjusted this week due to the winter weather. The City of Wichita Falls will resume all normal trash collection services on Monday, February 22.

For curbside collection, please ensure to set your container at least five feet from any horizontal obstructions to include parked vehicles, mailboxes and overhanging trees. The container also needs to be within 2 feet of the curb to be reached by the collection equipment. All trash shall be bagged and held within the container to be safely collected. No loose trash or trash outside of the curb carts will be collected. Please ensure that alley and commercial dumpsters do not have loose trash or other items set against the containers or the dumpster will be unable to be collected.

The Transfer Station and Landfill will resume normal hours starting Monday, Feb 22.
