## **2021 Sewer Budget Utility Improvement Project Phase 1**

Wichita Falls, Texas – As a part of the 2021 Sewer Budget Utility Improvement Project Phase 2, construction work will begin on Taft Blvd south of the intersection of Barbados. The construction will be split into two phases that will each take two weeks to complete, weather permitting. The first phase will begin March 3, 2022 with traffic being diverted to the two West lanes while the two East lanes are closed. Once that section of work is complete, the Contractor will flip the traffic control and divert traffic to the two East lanes and close the two West lanes. At least one lane will remain open for each direction of traffic throughout construction.

Please use caution and drive slowly when traveling in this area. We appreciate your continued understanding and patience as Public Works continues to repair sewer lines during this project.

For more information or questions, please contact the City of Wichita Falls Engineering Division at (940) 761-7477.
