

For Immediate Release

March 31, 2022

2022 Asphalt Rehabilitation Project – Lebanon Rd

Wichita Falls, Texas – As a part of the 2022 Asphalt Rehabilitation Project, construction work will take place on Lebanon Rd between Seymour Rd to Kell Blvd W. The construction will begin on April 4, 2022 and shall take approximately 6-8 weeks to complete, weather permitting. The Contractor will start on the southbound lane and traffic will be flagged around construction one lane at a time. In order to minimize disturbance, the traffic control will be set up on a per block basis as work progresses south. Once the southbound lane is complete, construction will begin on the northbound lane with traffic continuing to be flagged around construction in one block sections.

Please use caution and drive slowly when traveling in this area. The Public Works Department appreciates your continued understanding and patience as the Contractor begins the pavement repairs on this street.

For more information or questions, please contact the City of Wichita Falls Engineering Division at (940) 761-7477.
