Wichita Falls Encouraging Students to Read to Learn About Water

Wichita Falls, Texas – The Public Works Department and the Wichita Falls Public Library are teaming up to help students learn more about water during the National Drinking Water Week Reading Program.

Kids are encouraged to read 3 to 5 books during between April 22, 2022 and May 5, 2022 in which water is the topic. The Library already has some suggestions. Readers will log their books and when they complete their goal they will get a free book or a cute plushie.

The program is free of charge. The simple goal is to get kids reading and learning about drinking water.

If you would like more information call Water Purification at (940) 691-1153 or the Library at (940) 767-0868
